2. The submitted IDS has been considered. A copy of applicant-submitted Form PTO1449 is enclosed. The Search Report has been considered.
3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1, 5-6 are rejected under 35 U.S.C. 102(b) as being anticipated by submitted JP 5-89993.

5. Applicant should note that the examiner has, for the record, requested a translation of the above applied non-English reference from STIC within the USPTO and intends to attach a copy of the translation with the next office action, if available. Should applicant obtain translations independently of the USPTO, a copy of it should be forwarded to the examiner for inclusion in the file.
6. Claims 2-4 and 7 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
